Nursing Delegation Guidelines for Nurses and Advanced Practice Nurses

Jimmy A. Reyes, DNP, AGNP, RN
Associate Director of Practice and Education

As healthcare, education, and nursing regulation continues to evolve, it is critical for nurses and advanced practice nurses to become cognizant of the changing landscape and assess the prospective practice and regulatory implications (NCSBN, 2016b). One of these changes is the evolving role and responsibility of licensed health care providers and assistive personnel in regards to the delegation process.

According to the *National Guidelines for Nursing Delegation* published by the National Council of State Boards of Nursing (2016a), the delegation process "begins with decisions made at the administrative level of the organization and extends to the staff responsible for delegating, overseeing the process, and performing the responsibilities" (p. 5). In addition, this process requires

sound communication, empowerment of staff to make decisions based on sophisticated clinical judgment, and organizational support. In other words, the employer/nurse leader, licensed individual, and delegatee all have specific roles and responsibilities based on the Delegation Model (see Figure 1). For example, a nurse is responsible to determine client needs and when to properly delegate a task or function to an assistive personnel. Furthermore, it is imperative that the delegation process involves the five rights of delegation: the *right task* shall be performed under the *right circumstances* by the *right person* with the *right direction and communication* and *right supervision and evaluation* (see Table 1) (Mueller & Vogelsmeier, 2013; NCSBN, 1996).

Regardless of the role of the delegatee (i.e. registered nurse, licensed practical nurse, unlicensed assistive personnel), the delegation process may be recapped as follows:

- "A delegatee is permitted to perform a specific nursing activity, skill, or procedure that is outside of the traditional role and basic responsibilities of the delegatee's current position;
- The delegatee has obtained the additional education and validated competence to perform the care/delegated responsibility;
- Activities and functions which are beyond the scope of practice of the licensed practical nurse may not be delegated to unlicensed assistive personnel;
- The licensed nurse who delegates the "responsibility" maintains overall accountability for the patient. However, the delegatee bears the responsibility for the delegated activity, skill, or procedure;

Executive Director's Report

UPDATE – The "Enhanced" Nurse Licensure Compact

Kathy Weinberg, Executive Director

The "Enhanced" Nurse Licensure Compact was introduced to Iowa nurses in the February, March, April 2016 and the May, June, July 2016, editions of the *Nursing Newsletter*.

As of this publication the "Enhanced" compact is on the move nationally and has been adopted in the following states: Arizona, Florida, Idaho, Oklahoma, South Dakota, Tennessee, Virginia and Wyoming. The states, Missouri and New Hampshire are waiting for their governor's signature. Four other states still have active bills to adopt the "enhanced" compact this session: Illinois, Minnesota, New Jersey and Rhode Island.

The Iowa Board of Nursing will introduce legislation to adopt the "Enhanced" Nurse Licensure Compact in the 2017 Legislative Session.

As a reminder here is important information you should know as Iowa moves forward with the "Enhanced" Nurse Licensure Compact:

- Iowa is one of 25 states that are currently members of the Nurse Licensure Compact (NLC).
- The NLC has been operational for over 15 years.
- The "Enhanced" NLC is an updated version of the current Nurse Licensure Compact with the goal to have all 50 states become members.
- Key elements of the "Enhanced" NLC:
 - Provides for uniform licensure requirements for all states.
 - The practice of nursing takes place in the state where the patient resides.

Executive Director continued from page 1

- Nurses have the ability to practice in multiple states with one license.
- Reduces regulatory requirements by eliminating the necessity to obtain a license in each state.
- Increases access to care while maintaining public protection.
- Clarifies a nurse's authority to practice in multiple states via tele-health.
- Allows nurses to quickly cross state borders and provide vital services in the event of a disaster.
- Removes burdensome expense for both the nurse and the organizations that employ them.
- Provides member states the authority to facilitate a discipline case across state lines.

Visit our website, <https://nursing.iowa.gov> to learn more about the "Enhanced" Nurse Licensure Compact. Keep the momentum going and support the "Enhanced" Nurse Licensure Compact for Iowa.

Board Meeting

October 5, 6, 7, 2016 (September 14, 2016)
January 11, 12, 13, 2017 (December 21, 2016)
April 19, 20, 21, 2017 (March 29, 2017)

Requests for establishment of new schools, requests for major curriculum change, other special requests, and regular business will be considered at each meeting. Materials must be received in the board office three (3) weeks prior to a scheduled board meeting. For your convenience, behind each board meeting date is the deadline for receipt of materials.

Board Member Profile

Mark G. Odden, BSN, MBA, CRNA, ARNP

Editor's note: Three year appointments to the Iowa Board of Nursing (BON) occur following an application process and appointment by the Governor and Lt. Governor. In this article you will learn more about Mark Odden who was appointed to the BON effective May 1, 2016. Mr. Odden will serve on the Practice Committee of the Board.

Mark Odden is a graduate South Dakota State University College of Nursing in 1980. He completed the Nurse Anesthesia program at the Mayo Clinic School of Health Related Sciences in 1984. He later received an MBA in 1993 from the College of Business at the University of Iowa.

Mr. Odden is currently the President and clinical director of Iowa Anesthesia, L.C., the company he formed in 2001,

and President of Odden Anesthesia Services, L.C. This company provides anesthesia services to hospitals and pain care clinics in northeast Iowa and Wisconsin. Additionally, he is a clinical instructor with the Anesthesia Nursing Program at the University of Iowa.

Mr. Odden is a member of and immediate past national Region 4 Director of the American Association of Nurse Anesthetists (AANA). He has been the two time past Chairman of the AANA State Organizational Development Committee, and past member of the Public Relations Committee and PAC Committee. He is past President of the Iowa Association of Nurse Anesthetists.

Mr. Odden is active in state and local government and works with political election campaigns at the state and federal levels. Additionally, Governor Branstad recently appointed Mr. Odden to the Iowa Board of Nursing.

Mr. Odden was a past team member to Brazil with Operation Rainbow as an anesthesia provider for the surgical team. He also was a team member to Tanzania and Kenya with Iowa State Senator Charles Larson, Jr. to climb Mount Kilimanjaro and to Washington State to climb Mount Rainer.

He is a trainer for the Iowa State Patrol Tactical Response Team as a criminal force and medical advisor.

Striving to be a premier health services and education provider in the Midwest, by serving and living as Promise People.

EEO Employer/Protected Veteran/Disabled

Jason is a nurse in the Intensive Care Center at Mercy Cedar Rapids.

After multiple job shadows, he chose Mercy because he loved the environment, teamwork and interaction. "Everyone helps everyone else out. We're all coworkers, but we're all friends, too. Nowhere else is like here," he said.

In fact, on this day, Jason came in on his day off to be interviewed and we found him helping his coworkers with patient care!

"I love that we treat people like people – not a number, a room number or a diagnosis," he said.

Nursing Delegation continued from page 1

TABLE 1

Five Rights of Delegation

Right task

- The activity falls within the delegatee's job description or is included as part of the established written policies and procedures of the nursing practice setting. The facility needs to ensure the policies and procedures describe the expectations and limits of the activity and provide any necessary competency training.

Right circumstance

- The health condition of the patient must be stable. If the patient's condition changes, the delegatee must communicate this to the licensed nurse, and the licensed nurse must reassess the situation and the appropriateness of the delegation.

Right person

- The licensed nurse along with the employer and the delegatee is responsible for ensuring that the delegatee possesses the appropriate skills and knowledge to perform the activity.

Right directions and communication

- Each delegation situation should be specific to the patient, the licensed nurse, and the delegatee.
- The licensed nurse is expected to communicate specific instructions for the delegated activity to the delegatee; the delegatee, as part of two-way communication, should ask any clarifying questions. This communication includes any data that need to be collected, the method for collecting the data, the time frame for reporting the results to the licensed nurse, and additional information pertinent to the situation.
- The delegatee must understand the terms of the delegation and must agree to accept the delegated activity.
- The licensed nurse should ensure that the delegatee understands that she or he cannot make any decisions or modifications in carrying out the activity without first consulting the licensed nurse.

Right supervision and evaluation

- The licensed nurse is responsible for monitoring the delegated activity, following up with the delegatee at the completion of the activity, and evaluating patient outcomes. The delegatee is responsible for communicating patient information to the licensed nurse during the delegation situation. The licensed nurse should be ready and available to intervene as necessary.
- The licensed nurse should ensure appropriate documentation of the activity is completed.

Source: National Council of State Boards of Nursing. (1995, 1996).

- The licensed nurse cannot delegate nursing judgment or any activity (i.e. an assessment) that will involve nursing judgment or critical decision-making;
- Nursing responsibilities are delegated by someone who has the authority to delegate;
- When delegating to a licensed nurse, the delegated responsibility must be within the parameters of the delegatee's authorized scope of practice under the Nurse Practice Act" (IBON, 2011; NCSBN, 2016a, p. 6).

As previously indicated, the delegator is still responsible for ensuring a specific task/function given to a delegatee is executed entirely, safely, and correctly. That said, it is critical for delegators to evaluate the efficacy of the delegation process and/or determine if a better approach could be used to meet the client's needs. Furthermore, leaders and administrators are advised to implement and evaluate competency validation programs and/or courses for their employees to maintain proficiency and application of current evidence-based practices.

The delegation process is an intrinsic part of patient care. When delegation decisions are made, delegators

shall base these actions on patient safety, quality of care, and public protection principles. As new evidence becomes available and care delivery models evolve, it is critical for leaders and health care providers to evaluate the delegation process and determine more effective communication and collaboration approaches, in addition to providing staff guidance, mentorship, and educational resources.

The Iowa Board of Nursing is seeking qualified individuals to apply for the Iowa Nurse Assistance Program Committee.

The Iowa Nurse Assistance Program is a confidential monitoring/advocacy program based on Iowa Administrative Rules 655, chapter 19. The Iowa Nurse Assistance Program Committee will meet face to face on a quarterly basis or more frequently if warranted. Committee members shall be appointed for three-year terms and shall serve for a maximum of three terms.

655-19.1(272C) Iowa nurse assistance program committee. Pursuant to the authority of Iowa Code section 272C.3(1)"k" the board establishes the Iowa nurse assistance program committee (INAPC), formerly known as the licensee review committee, to implement the Iowa nurse assistance program (INAP). The purpose of the INAPC is to provide a program to support the evaluation and monitoring of licensees who are impaired as a result of alcohol or drug abuse, dependency, or addiction, or by any mental or physical disorder or disability, while protecting the health, safety and welfare of the public.

655—19.3(272C) Organization of the committee. The board shall appoint the members of the INAPC.

19.3(1) Membership. The membership of the INAPC includes, but is not limited to:

- The executive director of the board or the director's designee from the board's staff;
- One board of nursing licensee who has maintained sobriety for a period of no less than two years following successful completion of a recovery program;
- One licensed health care provider with expertise in substance use disorders;
- One licensed provider with expertise in mental health; and
- One public member.

Qualified individuals may apply to be a member of the committee by submitting a letter of intent, addressing your qualifications as stated in 19.3(1), and a current resume to the Iowa Board of Nursing, Attention: Kathy Weinberg, Executive Director, by August 31, 2016 to Kathy.Cornwell@iowa.gov, or mail the items to:

IOWA CENTER FOR
NURSING
WORKFORCE

NCSBN and The National Forum Publish the 2015 National Nursing Workforce Survey

Chicago – The National Council of State Boards of Nursing (NCSBN) and The National Forum of State Nursing Workforce Centers (The National Forum) announce the publication of the 2015 National Nursing Workforce Survey, a new study that provides a comprehensive snapshot of the U.S. registered nurse (RN) and licensed practical/vocational nurse (LPN/VN) workforce in 2015.

Every two years, NCSBN partners with The National Forum to conduct the only national-level survey specifically focused on the U.S. nursing workforce. The study generates information on the supply of nurses in the country, which is critical to planning for sufficient numbers of nurses and ensuring a safe, diverse, accessible and effective health care system.

Study data were collected between June 2015 and September 2015. Approximately 79,000 nurses participated in the study, with representation from all 50 states, the District of Columbia and four U.S. territories (American Samoa, Guam, the Northern Mariana Islands and Virgin Islands).

In addition to offering a description of the current nursing workforce, the data obtained from this study allow for an examination of trends as compared to the previous survey conducted in 2013, as well as past studies conducted by the Health Resources and Services Administration (HRSA). It also serves as a baseline for future research.

A trend that emerged from the study is that the nursing population is changing in both ethnic/racial and gender makeup. The number of male RNs is growing slightly with a higher proportion of male nurses in the more recently licensed cohorts (12.7 percent) as opposed to those licensed prior to 2000 (4.7 percent). Additionally, the nursing workforce is becoming more ethnically diverse as ethnic minorities are better represented in younger age-groups and in more recently licensed RNs than in older RNs and RNs licensed prior to 2000. Similarly, newly licensed LPN/VNs were more likely to have a more diverse racial/ethnic composition.

Reflecting transformations in the health care environment, the study found that what is considered the “work setting” for both RNs and LPN/VNs has evolved, as patient care is no longer confined within the walls of a health care facility, owing in part to the growing use and acceptance of technology. Nearly half of RNs and LPN/VNs in the study reported having provided nurse services using telehealth technologies.

Each board of nursing and state nursing workforce center will be provided with their own state data from the study that they can use for their own analyses as well as national-level data that they can use as a comparison benchmark.

The article, “The 2015 National Nursing Workforce Survey,” is available as a supplement to the April 2016 issue of the Journal of Nursing Regulation (JNR) and can be purchased at <http://www.journalofnursingregulation.com/issue/S2155-8256%2816%29X0003-8>.

About The National Forum

The National Forum of State Nursing Workforce Centers is a national group of nurse workforce entities that focus on addressing the nursing shortage within each state and contributes to the national effort to assure an adequate supply of qualified nurses to meet the health needs of the U.S. population. The Forum supports the advancement of new as well as existing nurse workforce initiatives and shares best practices in nursing workforce research, workforce planning, workforce development and formulation of workforce policy. The Forum shares information in three major ways: through publications, via annual conferences, and by way of a virtual network located at <http://www.NursingWorkforceCenters.org>.

20150207-0914

Mercy Nurses Rock!

We're looking for awesome nurses to be part of our care team at Mercy-Sioux City! We are growing and we want the best and the brightest to come work with our team of great caregivers and doctors to provide the best care to our patients. There are some exciting times ahead for Mercy-Sioux City and we want you to be a part of it!

Mercy is looking for full and part time Nurses throughout our hospital including ER/Trauma, Surgery, Rehab and our brand-new ICU!

Ask us about our **NEW** Nurse Residency Program. **It's all about your future!**

Competitive wages, benefits, and education reimbursement!

Please visit our website at <http://www.mercysiouxcity.com> or apply online at www.mercysiouxcity.com/careers.

EEO Employer F/M/Veteran/Disabled.

In 2010, the Institute of Medicine released a landmark report, *The Future of Nursing: Leading Change, Advancing Health*, which recommended increasing the number of nurse leaders in pivotal decision-making roles on boards and commissions that work to improve the health of everyone in America. The Nurses on Boards Coalition (NOBC) was created in response to this, as a way to help recruit and engage nurses to step into leadership roles.

The NOBC represents nursing and other organizations working to build healthier communities in America by increasing nurses' presence on corporate, health-related, and other boards, panels, and commissions. The coalition's goal is to help ensure that at least 10,000 nurses are on boards by 2020, as well as raise awareness that all boards would benefit from the unique perspective of nurses to achieve the goals of improved health in the United States.

We encourage each and every one of you, over 3 million strong, to visit www.nursesonboardscoalition.org, sign up to be counted if you are on a board and read more about the efforts being made to help build the future of our profession.

Creating an Online User Account

If you have ever done business online with any state agency (such as for college aid), you would use the same account id that you have already created. Otherwise, all license related processes begin with user registration, including updating contact, employment or educational information. Secured Access and ordering a roster also require the visitor to register.

The main menu displays the following option:

If you click on "Create a New Account," you will be taken directly to the registration page and tab that you need in order to register:

This registration site is maintained by the state's technology division as a global login for the entire state enterprise.

Enter your first and last name:

The registration automatically combines first and last names into a suggested user i.d., and appends "@iowaid." But if the first name/last name combination already exists, the i.d. field will appear blank, and you will need to create your own account i.d. In either case, anything can be substituted ahead of the "@", but the i.d. that is created is permanent so it will need to be memorable.

Enter your email address twice in the screen pictured above, and click "Save Account Details." A popup box gives a final caution.

If you created an i.d. with your first name.lastname as your i.d., and someone else with the same first and last name has already registered to do any kind of business with the State of Iowa, you will receive the following error message.

After successfully selecting an i.d., entering the email address twice and clicking "continue," you will see the following screen advising you that an email has been sent with information to complete the registration. Note that there is a time limit of 48 hours to complete the registration.

The email will include a link to come back to the registration site. This is done as verification that the email address is a real one. Clicking the link in the email returns the user to the following screen at the EAA website to complete the registration by selecting security questions and answers.

The next screen requires the user to create their password:

The registration is complete, and the user is taken to the screen where they can actually log in. Note that the above registration process should only be required once. Thereafter, the licensee would use the existing account.

Also note that on most screens there is a "Help" button. This will take you to a help library maintained by the state's Office of the Chief Information Officer (OCIO), and may take you to the relevant portion of an extended FAQ system.

It is only on the login screen itself, that you will find a link to report an issue to the OCIO Help Desk.

This link will take you into the state's OCIO site to submit a service request or inquiry.

Practice Corner

Scope of Practice Decision Making Model for Advanced Registered Nurse Practitioners

Scope of Practice Decision Making Model for Advanced Registered Nurse Practitioners

Jimmy A. Reyes, DNP, AGNP, RN
Associate Director – Practice/Education

The Iowa Board of Nursing (IBON) acknowledges advanced practice nursing is dynamic and fluid. The scope of advanced practice nursing evolves and changes through experience, clinical competency, evidence-based practice and research, technology, legislation, and changes in the health care system (Kleinpell, et al., 2012; LACE, 2012; NCSBN, 2008). That said, advanced practice nurses may need to practice in new settings, perform additional tasks and functions, and develop new set of skills during their professional careers. The IBON is often asked questions regarding the scope of practice of Advanced Registered Nurse Practitioners (ARNPs) such as “Does my training and experience match within the scope of practice required to practice?” or “Is it within the scope of practice of the ARNP to perform this procedure?”

According to the literature, scope of practice is defined as a set of rules, regulations, and boundaries within which a fully qualified ARNP may practice (Kleinpell et al., 2012; NCSBN, 2009). Scope of practice reflects the population foci or the patients that can be cared for by the ARNP; the procedures, tasks, and functions that ARNPs can perform; and may influence the capacity for reimbursement and payment models (Kleinpell et al., 2008; Kleinpell et al., 2012).

Determining ARNP scope of practice may include:

- State law and regulation
- National nursing organization standards of practice
- Accreditation standards
- Institutional policies and procedures
- Professional liability and risk management concerns
- Nursing literature and research (ANA, 2015; IBON, 2009; NCSBN, 2009).

The following questions (embedded in the graphic titled *Scope of Practice Decision Making Model for ARNPs*) may help to clarify whether a new activity/procedure can be incorporated into an individual's scope of practice:

- Is the task/function included in the scope of practice based on your national certification specialty area?
- Is the task/function consistent with national nursing organization standards of practice, nursing literature and research, and accreditation standards?
- Do you personally possess the depth and breadth of knowledge to perform the task/function safely and effectively, as acquired in an ARNP education program and/or continued nursing education program?
- Do you have the required knowledge, competency, skill, and expertise to perform the task/function safely?
- Is the performance of the activity within the accepted “standard of care” which would be provided in similar circumstances by reasonable and prudent ARNPs who have similar training and experience?
- Is the task/function consistent with appropriately established facility/agency policies and procedures?
- Will the patient be safe if I perform this task? Are all the safeguards in place?
- What is my decision to perform or decline to perform the task/function according to currently accepted standards of care and policies/procedures?

The Iowa Board of Nursing understands individual scope of practice will vary and what is within the individual scope of practice for one ARNP may not be within the individual scope of practice for another ARNP authorized to practice in the same role and specialty (NCSBN, 2009). Most important, it is critical to keep in mind that the Board holds each

NCSBN Provides Nursys e-Notify Free of Charge to Nurses Wishing to Track Their License Status

Chicago – The National Council of State Boards of Nursing (NCSBN) now provides automatic license status quickly, easily, securely and free of charge to individual nurses who enroll through Nursys e-Notify. This innovative nurse licensure notification system was previously only available to institutions that employ nurses.

Nursys is the only national database for licensure verification for registered nurses (RNs), licensed practical/vocational nurses (LPN/VNs) and advanced practice registered nurses (APRNs). Nursys is designated as a primary source equivalent database through a written agreement with participating boards of nursing (BONs). Nursys is live and dynamic, and all updates to the system are reflected immediately, pushed directly from participating BON databases through frequent, secured data updates.

In just a few minutes, Nurses can self-enroll into Nursys e-Notify for free and take advantage of a quick and convenient way to keep up-to-date with their professional licenses. They can receive licensure status updates, track

license verifications for endorsement and create and manage multiple license expiration reminders. Keeping on top of license status can help nurses prevent fraudulent licenses or certificates being issued in their names.

Creating an account is quick and easy. Enroll at www.nursys.com/e-notify and select "As a Nurse" to complete the registration process. Learn more about Nursys e-Notify by viewing an introductory video or visiting the Nursys website. For questions, contact nursysenotify@ncsbn.org.

About NCSBN

Founded March 15, 1978, as an independent not-for-profit organization, NCSBN was created to lessen the burdens of state governments and bring together boards of nursing (BONs) to act and counsel together on matters of common interest. NCSBN's membership is comprised of the BONs in the 50 states, the District of Columbia, and four U.S. territories — American Samoa, Guam, Northern Mariana Islands and the Virgin Islands. There are also 24 associate members that are either nursing regulatory bodies or empowered regulatory authorities from other countries or territories.

NCSBN Member Boards protect the public by ensuring that safe and competent nursing care is provided by licensed nurses. These BONs regulate more than 4.5 million licensed nurses.

Mission: NCSBN provides education, service and research through collaborative leadership to promote evidence-based regulatory excellence for patient safety and public protection.

The statements and opinions expressed are those of NCSBN and not the individual member state or territorial boards of nursing.

Join a leader in health care excellence

Mercy Medical Center - Des Moines

For nearly 120 years, Mercy has provided the highest quality health care to central Iowans. Our founders, the Sisters of Mercy, believed in caring for anyone who needed it. That dedication is what has helped us build a reputation for offering the highest quality medical services in the area.

Mercy would like to thank our nurses for the excellent work they do to provide exceptional patient care each day.

If you or someone you know would like to be part of an outstanding team of nurses, Mercy currently has both full-time and part-time opportunities available in several nursing areas.

Mercy Medical Center-Des Moines is an Equal Opportunity Employer who values the strength diversity brings to the workplace.

Interested applicants can apply on-line at www.mercydesmoines.org or call (515) 247-3100.

Inpatient Clinical Resource RN – 40 hrs/week, Days. Current IA RN license with BSN. Minimum 3 years RN experience required, plus a minimum 2 years leadership experience. BLS, ACLS, PALS, and NRP required within 6 months.

RN – Med/Surg – 36 hrs/week, 7p-7:30a, with every 3rd weekend. Current IA RN license, with previous Med/Surg and Critical Care experience preferred. BLS required; ACLS and PALS encouraged.

RN – SCU – 36 hrs/week, 7p-7:30a, with every 3rd weekend. Current IA RN license, with a minimum of 1 year hospital nursing experience. BLS and ACLS required; TNCC and PALS encouraged. Completion of basic cardiac arrhythmia class required.

RN – Emergency Dept. – 24 hrs/week, 7a-7:30p, with every third weekend. Current IA RN license, with a minimum of 1 year previous ED experience. BLS required; ACLS, TNCC, PALS required within 1 year.

Central Supply Coordinator – 20 hrs/week, Days. Two years' experience in Central Supply or OR required; RN, LPN, or Central Supply Tech with certification.

Surgical Tech – 36 hrs/week, 7a-3:30p, with occasional weekends. Completion of accredited Surgical Technician program with national certification or working toward it; 1+ year of hospital OR experience preferred. BLS required.

Skiff offers a very competitive compensation and benefits package. Successful completion of pre-employment screen is required. EOE

Renewal Reminder

Licensees should plan to renew their nursing license 30 to 60 days prior the expiration date. A nursing license may be renewed until midnight of the expiration date without penalty, but this practice is discouraged. Online system problems can occur and late fees will be assessed for any renewal completed after midnight of the expiration date.

EXPIRATION DATE	RENEWAL DATES	LATE FEE ASSESSED	INACTIVE STATUS (if not renewed)
July 15, 2016	May 15, 2016 – July 15, 2016	July 16	August 16, 2016
August 15, 2016	June 15, 2016 – August 15, 2016	August 16	September 16, 2016
September 15, 2016	July 15, 2016 – September 15, 2016	September 16	October 16, 2016
October 15, 2016	August 15, 2016 – October 15, 2016	October 16	November 16, 2016

A \$50 late fee is required for licensees who renew within the 30 days after the license lapses. Licenses that are not renewed will automatically be placed on inactive status on the 16th of the month following the expiration date of the license.

The continuing education requirement for license renewal is 36 contact hours (3.6 CEUs) for the renewal of a full three year license. Licensees renewing for the first time after the license was originally issued, or for the first time after a reactivation, will need 24 contact hours (2.4 CEUs) completed after the effective date printed on the license wallet card. Before you renew, you should have your documentation in-hand to confirm you have what you need. As soon as you renew, you will know if you have been chosen for audit. Remember, if it is not documented – it is not done!

Change of Address/Name

State law requires you to keep the Board of Nursing apprised at all times of your current mailing address. Notification of NAME changes must be made in writing. For your convenience, you may utilize the following form to submit your address/name change.

UNIVERSITY of DUBUQUE

Full-Time Faculty Position in Nursing Department

The University of Dubuque invites applications for a potential full-time faculty position in our pre-licensure nursing track (generic BSN) beginning August, 2016. Preferred qualifications include an earned doctorate, extensive clinical experience with a current RN license, and expertise in OB/Peds nursing. Responsibilities include teaching, advising students, maintaining a scholarship agenda, and participating in the broader life of the University. Classes taught will be in the nursing professional core and OB/Peds nursing education.

To apply, please send the following materials to HR@dbq.edu or Director of Human Resources, University of Dubuque, 2000 University Avenue, Dubuque, IA 52001.

- 1) A letter of introduction summarizing your interest in and qualifications for the position,
- 2) A current resume/vitae, UD employment application form, located on our Website, and
- 3) Contact information for three professional references. Applications will be reviewed as received and accepted until the position is filled. AA/EO

SOUTH DAKOTA STATE UNIVERSITY

Consider a Career in Teaching & Research

Full-time Assistant Professor and Instructor positions available.

The College of Nursing is seeking full-time Assistant Professor and Instructor positions. SDSU is a land grant institution and the state's largest institution of higher education with an enrollment of approximately 13,000 students. The College of Nursing includes CCNE accredited undergraduate standard, accelerated, RN Upward Mobility, and graduate programs with more than 900 students at multiple sites. For a closer look at, visit our website: www.sdstate.edu/nurs/index.cfm

For a full list of qualifications and to apply for the full-time positions, visit: <http://yourfuture.sdbor.edu>. For temporary summer teaching options, please call the number below. Applications will be screened as received and will continue to be accepted until positions are filled.

Agendas and Minutes On the Web

All Board agendas are on our website. Agendas are posted at least 24 hours in advance of a meeting. Agendas will remain posted for historical reference, but will be moved to the "Previous Meetings" section of the website, once the meeting date has passed. Board minutes are posted at our website following the meeting or conference call in which they are approved. You can locate our Agendas and Minutes at our website, <https://nursing.iowa.gov>, under "About the Board." You may subscribe to email notification of the first posting of a meeting or conference call agenda by sending a blank email to: join-IBON_AGENDAS@lists.ia.gov.

Fluoroscopy Audit Reminder

The administrative rules governing nursing in Iowa require Advanced Registered Nurse Practitioners (ARNPs) who supervise the use of fluoroscopic x-ray equipment to have the appropriate education and continued annual radiological safety updates. Pursuant to 7.2(d), the initial and annual education requirements are subject to audit by the Board. Therefore, the Board of Nursing will be auditing ARNP's who supervise fluoroscopy.

The initiation of the audit process began January 12, 2015. The process is as follows:

- On the ARNP online and paper renewal application a question will be asked if the practitioner provides direct supervision in the use of fluoroscopy. The renewal process is every three years,
- If the practitioner answers yes, they will be required to provide verification of completion of the initial course and yearly safety courses, along with a **copy of the course description and learning outcomes (it is important to submit the specific course description and learning outcomes and not just the course title)**,
- Board staff will contact the practitioner if there are any questions about the submitted course work or if the practitioner has not completed their required education,
- At any point in time that board staff identifies the ARNP is not complying with the course requirements and the audit process the information will be submitted to the Enforcement Unit.

The Iowa Board of Nursing recognizes this is a new process for all ARNP's supervising the use of fluoroscopic x-ray equipment. Board staff is committed to assist practitioners in the audit process. Please contact Dr. Jimmy Reyes, Associate Director of Practice/Education for questions and concerns, Jimmy.Reyes@iowa.gov

EASTERN IOWA COMMUNITY COLLEGES
CLINTON ♦ MUSCATINE ♦ SCOTT

Available Nursing Faculty Positions

Eastern Iowa Community Colleges (SCC campus) is seeking **Nursing Instructors** who are committed to diversity, inclusion, and innovation.

Qualifications will include:

- Master's degree in Nursing required, or shall make annual progress toward the attainment of such degree.
- Two years clinical nursing experience required.
- Must have the ability to work with a diverse student population.
- Must possess and maintain a valid Iowa Registered Nurse license and BCLS certified.
- Successful candidates must possess exceptional communication skills both verbal and written.

Review of applications/resumes will begin immediately and continue until the position is filled. For more information regarding these employment opportunities please visit our website at <http://www.eicc.edu/about-eicc/careers/index.aspx>.

Interested applicants should submit resume, cover letter, and unofficial transcripts to: EICC-HR@eicc.edu or Human Resources Dept., Eastern Iowa Community Colleges, 306 West River Drive, Davenport, IA 52801-1221

It is the policy of Eastern Iowa Community Colleges not to discriminate on the basis of race, color, national origin, sex, disability, age (employment), sexual orientation, gender identity, creed, religion, and actual or potential parental, family or marital status in its programs, activities, or employment practices as required by the Iowa Code §§ 216.6 and 216.9, Titles VI and VII of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d and 2000e), the Equal Pay Act of 1973 (29 U.S.C. § 206, et seq.), Title IX (Educational Amendments, 20 U.S.C. §§ 1681 – 1688), Section 504 (Rehabilitation Act of 1973, 29 U.S.C. § 794), and Title II of the Americans with Disabilities Act (42 U.S.C. § 12101, et seq.).

If you have questions or complaints related to compliance with this policy, please contact Debora J. Sullivan, Equity Coordinator, 306 W. River Dr., Davenport, Iowa 52801, (563)336-3487, djsullivan@eicc.edu, or the Director of the Office for Civil Rights, U.S. Department of Education, Citigroup Center, 500 W. Madison, Suite 1475, Chicago, IL 60661, phone number 312/730-1560, fax 312/730-1576.

The U.S. Department of Labor is recruiting to contract with Registered Nurses, intermittently and part-time in Davenport, IA, Des Moines, IA, Mason City, IA and Sioux City, IA to coordinate medical management of injured Federal workers.

Contractual agreement is for two years with the option to renew based on performance. Minimum requirements are: applicable state licensure(s), case management experience in the workers compensation/occupational health field and medical-surgical experience for 1 to 3 years. Applicants must have computer skills and provide their own personal computers, fax and internet connectivity to work on these cases. Due to privacy concerns, use of public access computers or public access internet is not acceptable. The reimbursement rate is \$90.00 per hour for professional time and \$45.00 for administrative/travel time. A 2 day certification training session in Kansas City, MO is mandatory. No reimbursement for travel or lodging for certification training is provided. Federal employees and nurses working as contractors for other federal nurse intervention return to work programs are precluded from applying. Please send completed OF 612 and a copy of your resume to OWCP, Attn: Mary Hines, R.N., Staff Nurse Consultant, 2300 Main, Suite 1090, Kansas City, MO 64108. (link to OF 612 is <http://www.federaljobs.net/forms.htm#Downloadforms>)

Applications for consideration must be postmarked by 08/21/2016.
 Contact Mary Hines for questions 816-268-3068.

Preparing Confident Leaders

Mercy College of Health Sciences in Des Moines, Iowa offers three program options to become a nurse or continue your education. Students can make a *smooth transition* to **Mercy College** with their eligible liberal arts and science coursework. Scholarships and other financial aid options are also available. Visit us online or on campus to learn more.

3 Program Options for Nursing:

Associate of Science in Nursing

- Evening Classes & Weekend Clinicals starting in Fall 2016
- Prepare for a nursing career as a part-time student depending on prior college success
- Clinical experiences at Mercy Medical Center – Des Moines and other leading healthcare providers in central Iowa
- Local community-based optional experiences include understanding health care in homeless camps and with vulnerable populations

RN to BSN

- 100% online program provides flexibility for working nurses
- Graduates will be ready to assume roles involving leadership, education, research, and community health

Bachelor of Science in Nursing

- 3-year program of study (year round)
- Innovative concept-based approach to learning
- Immersion trip options with Native Americans in South Dakota and Mayan and Latino populations in Yucatan, Mexico

Join us for a
Nursing Information Session

Drake
UNIVERSITY

College of Business & Public Administration

With an emphasis in Health Care Management, the Master of Public Administration (M.P.A.) and Master of Business Administration (M.B.A.) programs at Drake are designed to provide the skills you need to take the next step in your career.

- Complete your degree in two years, attending part-time.
- Take weekend MPA courses in Ames or evening classes in Des Moines.
- Courses in the hybrid MBA program—the only one of its kind in central Iowa—alternate between online and on-campus classes.
- Learn from expert faculty who are recognized scholars and experienced practitioners.
- Gain access to our graduate alumni, who work in more than 200 companies across Iowa.
